

THE RICHMOND CLIMAX.

VOLUME X.

RICHMOND, MADISON COUNTY, KENTUCKY, WEDNESDAY, APRIL 14, 1897.

NUMBER 45.

WARNING.

We warn to caution all users of Simmons Liver Regulator of the danger of cheap imitations and the importance to their health of using the genuine. The sole proprietors of the Simmons Liver Regulator are the makers of the genuine. We warn you that unless the word Regulator is on the package or bottle, that it is not Simmons Liver Regulator. No one else makes, or ever has made, Simmons Liver Regulator, or anything called Simmons Liver Regulator, but the name is used by many cheap imitations. We alone can put it on, and we cannot be responsible, if other medicines represented as the same do not help you as you are led to expect they will. Bear this fact well in mind, if you have been in the habit of using a medicine which you supposed to be Simmons Liver Regulator, because the name was somewhat like it, and the package did not have the word Regulator on it, you have been imposed upon and have been taking Simmons Liver Regulator at all. The Regulator has been favorably known for many years, and all who use it know how necessary it is for Fever and Ague, Biliousness, Liver Troubles, Headache, Dyspepsia, and all disorders arising from a diseased Liver.

We ask you to look for yourselves, and see that Simmons Liver Regulator, which you can readily distinguish by the Red Z on wrapper, and by our name, is the only medicine called Simmons Liver Regulator.

J. M. ZEILIN & CO.

Mr. McCarty's Masterpieces.

[Items culled from the columns of the *Jessamine Journal* for the delectation of readers of the *CLIMAX*.]

All is not as harmonious within the Republican ranks in Jessamine as would seem. But then the Republican party may scratch and fight like hoodlums, but at the ballot box they vote as one. In this one item the Democrats might learn a profitable lesson.

Two young men at Monticello, Ky., died from drinking too many "hot drops," which is so often given children in case of coughing.

A patent has been invented by an Ohio man in which a residence can be kept cool in summer by radiators as well as hot in winter. Now for an invention to make ice cream out of cold air.

A lady in Delaware sees her husband for a divorce, because during a thunder storm he ran to the cellar. The paper didn't state whether the storm was blowing from the inside or outside of the house.

The municipal government of Louisville which is under control of the Republicans for the first time in the history of the party has been found rotten to the core by the grand jury and indictments brought against several of the councilmen. And yet Kentucky was under a Democratic administration for over thirty years, and so far Governor Bradley has failed to find any corruptness.

Personal Ambitions Must Be Repressed and Suppressed.

[Lexington Observer.]

The alarmingly disorganized condition of the Democratic party in this State is a matter for the serious consideration of each and every member of that party. It is too late to begin to consider how this disorganization was brought about. It is not necessary to point out, where personal ambitions and personal aspirations have sown the seeds of dissensions or alarm the fears of patriotic citizens. Great as these causes have been and justly censurable as they still are, to recite or recount them would not serve to mend the rents already existing. What is needed today is a solemn renewal of pledges to the great principles of the party as laid down by the fathers of the Republic, as set forth by Jefferson and reaffirmed in this State by the resolutions of '93 and declarations of subsequent State national conventions.

A new society has just been started in Brooklyn, the members of which will not be permitted to mention a great-grandfather or a great-grandmother without paying a fine. "This organization," says the *New York Advertiser*, "is the idea of a young lady, who, while eligible to be long to the Daughters of the Revolution, and even to the Colonial Dames, is heartily weary of hearing about genealogical trees. It is a sentiment many others can share, and the present talk about ancestry will be purified by some such antidote, if it cannot be cured. The man chosen for this new departure is the Parvian Society, and its badge, a mush room, with 'She cometh up as a flower' for the motto. Individuals with a taste for old silver and a conviction that they are descendants from venerable English stock need not apply for admission. Of course, if members have grand-uncles living, it will not be laid up against them, but these relatives must be spoken of, or alluded to with the utmost discretion."

The famous stable stallions Black Squirrel and Montrose were bred in Kentucky and brought to Missouri when about seven years old. After spending the best part of their lives in Andalus and Boone counties they were sold back to Kentucky and are now owned by J. W. Garrett, of Ft. Garrett, Kentucky. Both are totally blind but are still active and useful. Their service fee is \$1000 to insure a mare of the season being. Some of the most valuable horses in Boone and Andalus counties carry the blood of these great stallions—Columbia (Mo.) Herald.

Montrose lately died.

The efforts to establish a Democratic daily paper in Louisville seem to be meeting with success and the first issue is expected to appear about the middle of April. E. A. Zullo, of Nashville, is to be the editor and Allen R. Carter, of Louisville, the business manager. Mr. Carter is a good business man and can be counted on to make the enterprise succeed. Mr. Zullo is one of the leading men of the south, representing the Nashville district in congress three terms, where he took first rank from the beginning. He is a man of nerve and ability and the new paper under his editorship will be the leading paper of the south.

Messrs. Crawford Bros., of Lebanon, Ky., report to the Enterprise some good Jersey milk and butter yields. They report fifteen cows and heifers made an average during the year 1896 of 3963 pounds of butter. They further add: "We have a little cow which has been in milk 256 days, and her record was 6,038 pounds, four ounces of milk, which, according to her average test, made 390 pounds of butter. We had one cow to give 6,490 pounds of milk and make 448 pounds of butter in 276 days. Another to make 7,210 pounds of milk and 443 pounds of butter in 300 days, even."

AGENTS, \$25 to \$50 per week easy! You work right around home. A Brand new thing. Write to us quick! You will be surprised at how easy it can be done. Send us your address anyway. It will be to your interest to investigate. Write to-day. Ad. res.—"People's"—3941 Market St., Philadelphia, Pa. April 4

LITERARY NOTES.

"Does Modern College Education Educate, in the Broadest and Most Liberal Sense of the Term?" is one of the most important inquiries that could be set on foot. This discussion, which is to be taken part by President Gilman of the Johns Hopkins, President Dwight of Yale, President Schurman of Cornell, President Morton of the Stevens Institute, Henry Thurston Pack of Columbia, Bishop Potter and others of the most distinguished men of both the United States and Europe, is begun in the April Cosmopolitan by a radical inquiry into the educational problem along the lines of Herbert Spencer. President Gilman will follow in a direction almost equally searching. Altogether there is pronounced the frankest possible expression of opinion, and it seems probable that it will be the most thorough comparison ever made of educational methods with the needs of every-day life at the close of the nineteenth century.

LAND, STOCK AND CROP.

The Danville Advocate reports the sale of seventy-five acres of growing wheat at 65 cents per bushel, and the Standard Journal notes the sale of a big crop at 70 cents.

Mr. W. A. Logan, Hill City, South Dakota, came in last Friday to visit his parents, Mr. and Mrs. J. B. Logan, of this place, as well as other relatives in the county. He is delighted with his adopted state, and says land that you pay \$40 and \$50 here for can be bought there \$10 and \$12, and equally as productive. The weather is no colder in winter where Mr. Logan is located than in Kentucky. The county has a population of 10,000, and only two colored residents—Jesse and John Logan.

W. L. DOUGLAS \$3.00 SHOE

The Style, Fit and Wear could not be improved for Double the Price.

W. L. Douglas \$3.50, \$4.00 and \$5.00 Shoes are the productions of skilled workmen, from the best material possible to get into shoes sold at these prices. We make also \$2.50 and \$2.75 shoes for men, and \$2.50, \$2.00 and \$1.75 for boys, and the W. L. Douglas \$3.50 Shoe, very suitable for letter-carriers, policemen and others having much walking to do.

We are constantly adding new styles to our already large variety, and there is no reason why you should not have the best. Having W. L. Douglas Shoes from your dealer.

We use only the best Calf, Russia Calf, all colors, French Patent Calf, French Patent, etc., etc., graded to correspond with prices of the shoes.

If dealer cannot supply you, write to W. L. DOUGLAS, Brockton, Mass. CATALOGUE FREE.

ROYAL BAKING POWDER

Absolutely Pure

Celebrated for its great leavening power, it is the food against all acid and all forms of adulteration common to the cheap brands. ROYAL BAKING POWDER CO., NEW YORK.

A State Income Tax.

[New York Journal, March 12.]

Following in line with the recommendation of Controller Roberts that a new inheritance tax be imposed by New York State, Assemblyman Bates has introduced an income tax bill into the Legislature. It provides that after January 1, 1898, a tax shall be levied upon the gross profits and income received by the resident of the State, and by every citizen of the State, whether received from property rents, interests, dividends, salaries, or any source whatever. Such tax is to be one-half per cent. per annum on an income over \$1,000 and less than \$5,000; 1 per cent. on sums over \$5,000 and less than \$10,000; 1 1/2 per cent. on sums over \$10,000 and less than \$20,000; 2 per cent. on sums over \$20,000 and less than \$30,000; 2 1/2 per cent. on sums over \$30,000 and less than \$40,000 and one-half per cent. tax added to every additional \$10,000 taxed up to \$100,000.

As the Controller was denounced, undoubtedly, will Mr. Bates be denounced, as a "Socialist," and "Anarchist," and no true man. But he will be supported in this, as the Controller was supported in his proposal, by the great masses of the people. Through the fact has been lost sight of lately by a good many persons, it still remains true that the masses have equal political rights, and that the masses have equal political rights, and that the masses have equal political rights.

Indications such as these are of multiplying in every part of the United States, that the burdens of government seem to the people to be unjustly proportioned, and that the opinion is becoming general that they must soon be reformed. The old theory will at no distant day crystallize again into practice—the theory that taxation in its present social system should be proportioned to ability to bear taxation, and other words, to the benefits obtained from the Government taxation is necessary to support.

LOUISVILLE TOBACCO MARKET.

RUNNERS BY GLOVER & DEBERT, LOUISVILLE TOBACCO WAREHOUSE.

Sales on our market for the week just closed amount to 4740 lbs. with receipts for the same period 2903 lbs. Sales on our market since January 1st, amount to 36,990 lbs. Sales of the crop of 1896 on our market to this date amount to 35,470 lbs.

Notwithstanding the falling off in receipts this week, sales have kept up the full limit, thus materially reducing the supply of unshelled tobacco on market. The time of year has arrived when the holders of new burley tobacco realized that it is unsafe to carry tobacco which has been priced. The offerings this week have included even a larger percentage than usual, of very common tobacco and prices for such cargoes were conditionally favorable, but the tendency of the market is toward lower values for all grades in dangerous order. Prices this week have ranged from \$10 to \$16.25 for the best grades on sale, and the market has shown more activity and strength for such goods. The offerings of the week embrace some of the very good old burley which sold at prices varying from \$10 to \$17.50 per hundred, and the market may be quoted higher for all old burley in sound wet condition. The continued wet weather has retarded the preparation for plant beds and the sowing of seed, and the progress made in this direction is not as great as usual at this time of year.

The following quotations fairly represent our market for burley tobacco, 1896 crop:

Trash (green or mixed) 1.00 to 1.50
Trash (sound) 2.00 to 4.00
Common lugs 2.50 to 6.00
Common lugs not cored 2.00 to 3.50
Common cigs 5.00 to 7.00
Medium to good cigs 7.00 to 9.00
Common to medium leaf 5.00 to 8.00
Medium to good leaf 8.00 to 13.00
Good to fine leaf 13.00 to 16.00
Select wrappey leaf 16.00 to 19.75

The above quotations are not applicable to green and frosted crops.
